Plumbing (pack-plumbing)

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

> These are for custom/additional services that tenants create beyond the 3 suggested pack services. > Each industry should have 6-10 common service page images available. > Save to:
apps/web/public/storefront/services/{pack-code}/{service-slug}.jpg > Style: 800×500px, Fortune 500 quality, family-friendly, professional photography

Existing: drain-and-sewer.jpg, water-heaters.jpg, fixture-service.jpg

Missing:

drain-cleaning.jpg Professional photography of a plumber using a motorized drain snake to clear a clogged residential kitchen drain, water flowing freely after clearing, clean kitchen environment, organized tools, warm interior lighting, family-friendly, Fortune 500 quality, 800x500 landscape

leak-detection.jpg Professional photography of a plumber using an acoustic leak detection device along a residential water line, listening equipment and moisture meter visible, clean lawn and home exterior, precision diagnostic work, daylight, Fortune 500 quality, 800x500 landscape

consultation.jpg Professional photography of a plumber discussing a plumbing plan with a homeowner at their kitchen table, clipboard with estimate, friendly conversation, bright clean home, trust and expertise, Fortune 500 quality, 800x500 landscape

preventive-maintenance.jpg Professional photography of a plumber performing annual maintenance inspection under a sink, checking connections and water pressure, organized toolkit, clean bathroom, preventive care approach, Fortune 500 quality, 800x500 landscape

repair-service.jpg Professional photography of a plumber repairing a residential pipe joint with soldering tools, copper pipe visible, clean workspace with protective cloth, precision craftsmanship, warm interior light, Fortune 500 quality, 800x500 landscape

water-heater-diagnostic.jpg Professional photography of a plumber using a multimeter to test a water heater thermostat, tank-style heater in a clean utility room, diagnostic checklist visible, professional troubleshooting approach, Fortune 500 quality, 800x500 landscape

sewer-camera.jpg Professional photography of a plumber feeding a sewer inspection camera into a cleanout pipe, monitor showing pipe interior footage, clean residential driveway, modern diagnostic technology, Fortune 500 quality, 800x500 landscape

emergency-plumbing.jpg Professional photography of a plumber responding to a water shutoff situation, wrench on main valve, determined and competent expression, residential exterior, sense of urgency but calm professionalism, Fortune 500 quality, 800x500 landscape

repiping.jpg Professional photography of a plumber installing new PEX water supply lines through an open wall during a home repipe, organized color-coded tubing, clean construction environment, craftsmanship visible, Fortune 500 quality, 800x500 landscape

gas-line-service.jpg Professional photography of a licensed plumber testing a residential gas line connection with a leak detector, safety-first approach, proper ventilation visible, precise work, Fortune 500 quality, 800x500 landscape

HVAC (pack-hvac)

Existing: heating-and-cooling.jpg, maintenance-agreements.jpg, equipment-commissioning.jpg

Missing:

ac-repair.jpg Professional photography of an HVAC technician replacing a capacitor on a residential outdoor AC unit, multimeter in hand, clean workspace, summer day, competent repair work, Fortune 500 quality, 800x500 landscape

furnace-tuneup.jpg Professional photography of an HVAC technician performing a furnace inspection with combustion analyzer, clean basement utility area, organized tools, fall/winter maintenance theme, Fortune 500 quality, 800x500 landscape

ductwork.jpg Professional photography of an HVAC technician sealing ductwork joints in an accessible attic space, mastic and foil tape visible, clean work area, energy efficiency focus, Fortune 500 quality, 800x500 landscape

thermostat-install.jpg Professional photography of a technician installing a modern smart thermostat on a residential wall, precise wiring connections, clean wall finish, technology meets comfort, Fortune 500 quality, 800x500 landscape

indoor-air-quality.jpg Professional photography of an HVAC professional installing a whole-home air purification system into ductwork, filter media visible, clean modern utility room, health-focused service, Fortune 500 quality, 800x500 landscape

emergency-heating.jpg Professional photography of an HVAC technician diagnosing a furnace issue with a diagnostic meter, homeowner visible in background doorway, cold weather implied, urgent but professional service, Fortune 500 quality, 800x500 landscape

mini-split-install.jpg Professional photography of an HVAC installer mounting a ductless mini-split indoor unit on a residential wall, refrigerant lines routed cleanly, bright modern room, premium installation, Fortune 500 quality, 800x500 landscape

Landscaping (pack-landscape)

Existing: property-zones.jpg, crew-routing.jpg, seasonal-work.jpg

Missing:

lawn-care.jpg Professional photography of a landscaper operating a commercial zero-turn mower on a pristine residential lawn, perfect cutting lines visible, lush green grass, blue sky, professional results, Fortune 500 quality, 800x500 landscape

garden-design.jpg Professional photography of a landscape designer presenting a garden plan to a homeowner in their backyard, sketches and plant samples visible, beautiful existing landscape, collaborative design, Fortune 500 quality, 800x500 landscape

irrigation-install.jpg Professional photography of a landscaping crew installing an in-ground sprinkler system with trenching and pipe layout visible, green lawn, organized materials, precision work, Fortune 500 quality, 800x500 landscape

mulching-beds.jpg Professional photography of a landscaper applying fresh mulch to ornamental beds around a residential home, wheelbarrow and rake, colorful plants, well-maintained property, Fortune 500 quality, 800x500 landscape

tree-planting.jpg Professional photography of a landscaping professional planting a balled-and-burlapped ornamental tree in a residential front yard, proper planting depth, quality specimen, beautiful property, Fortune 500 quality, 800x500 landscape

hardscape.jpg Professional photography of a landscape crew installing a natural stone patio in a residential backyard, level and compactor tools visible, precision placement, partially complete showing craftsmanship, Fortune 500 quality, 800x500 landscape

spring-cleanup.jpg Professional photography of a landscaping team performing spring bed cleanup on a residential property, removing winter debris, pruning perennials, signs of new growth, bright spring morning, Fortune 500 quality, 800x500 landscape

Electrical (pack-electrical)

Existing: panel-schedules.jpg, electrical-inspections.jpg, permit-tracking.jpg

Missing:

outlet-install.jpg Professional photography of an electrician installing a GFCI outlet in a kitchen, proper wiring connections visible, safety glasses, clean modern kitchen, precision work, Fortune 500 quality, 800x500 landscape

lighting-design.jpg Professional photography of an electrician installing recessed LED lighting in a residential ceiling, clean finished drywall, modern fixtures, bright well-lit result, home improvement, Fortune 500 quality, 800x500 landscape

ev-charger.jpg Professional photography of an electrician installing a Level 2 EV charger in a residential garage, dedicated circuit wiring visible, modern electric vehicle nearby, clean installation, Fortune 500 quality, 800x500 landscape

whole-house-surge.jpg Professional photography of an electrician installing a whole-house surge protector at a residential panel, clean wiring, protective equipment, home protection focus, Fortune 500 quality, 800x500 landscape

ceiling-fan.jpg Professional photography of an electrician mounting a modern ceiling fan in a bright residential bedroom, secure mounting bracket visible, balanced and level, home comfort improvement, Fortune 500 quality, 800x500 landscape

troubleshooting.jpg Professional photography of an electrician using a circuit tracer to locate a wiring issue in a residential wall, systematic diagnostic approach, non-contact voltage tester, clean work area, Fortune 500 quality, 800x500 landscape

generator-install.jpg Professional photography of an electrician connecting a whole-home standby generator with automatic transfer switch, residential exterior, clean professional installation, backup power solution, Fortune 500 quality, 800x500 landscape

General Notes

Apply the same pattern (3 existing + 4-7 additional common services) for ALL 30 industries. The additional services should represent the most commonly booked service types for each trade that a business owner would want to list on their public storefront.

Naming Convention

- Filename: lowercase, hyphenated slug of the service name
- Location: apps/web/public/storefront/services/{pack-code}/{slug}.jpg
- Example: "AC Repair" → pack-hvac/ac-repair.jpg

After Generation

Once images are created and placed in the correct folders, the service image dropdown in the Storefront Builder should be updated to show pack-specific service images (not just industry hero images). This requires a code update to scan the available images per pack and present them in the dropdown.
