

PHASE DOCUMENTATION

Phase 66 Security Model

ServicePro product and operations documentation

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

Phase 66 is fail-closed.

- invalid rollout plans are rejected;
- rollout health failures pause deployment;
- rollback authorization requires a release ID, previous release ID, change ticket, and accountable operator;
- automated decisions are persisted as evidence;
- rollback execution must reference an authorized rollback ID;
- generated operational evidence remains outside source control.
