

PHASE DOCUMENTATION

Phase 68 Operations Runbook

Evaluate release risk

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

```
npm run release:risk-evaluate
```

Analyze deployment performance

```
npm run release:performance-analyze
```

Operating rule

Risk intelligence is advisory until the configured blocking threshold is reached. At or above the threshold, the release must be corrected, explicitly governed, or rejected.
