

PHASE DOCUMENTATION

# Phase 69 Security Model

ServicePro product and operations documentation

Publication edition | 2026-08-03

## Document Control

|                 |                                                                                             |
|-----------------|---------------------------------------------------------------------------------------------|
| <b>Purpose</b>  | Enterprise platform overview and buyer evaluation reference                                 |
| <b>Audience</b> | Business leaders, platform administrators, evaluators, partners, and technical stakeholders |
| <b>Scope</b>    | Capabilities, architecture, security, deployment, adoption, outcomes, and terminology       |
| <b>Source</b>   | ServicePro repository documentation; technical meaning preserved                            |

- simulations operate on cloned policies;
- active policy files are not modified by simulation;
- recommendation application is approval-gated;
- policy versions are persisted for audit;
- release controls remain fail-closed;
- generated evidence remains outside source control;
- no external AI service is required.
