

RELEASE DOCUMENTATION

ServicePro 8.0.0-alpha.1 — Remediation Tracker

ServicePro product and operations documentation

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

Status: Closed for locally testable release blockers

ID	Finding	Resolution	Verification	Commit
R B - 0 1	Payment application implementation missing	Restored validation, partial/full status transitions, timestamps, JSON audit events, and transactional PostgreSQL row locking/audit writes	Payment domain and Sprint 58/60 tests; PostgreSQL partial/full payment flow	1eb9e96
R B - 0 2	Seven release tests had drifted from current architecture	Reconciled navigation, Cloudflare static assets, migration invariants, and legitimate duplicate-table expectations	Complete suite	ad4d169
R B - 0 3	Runtime environment values were inconsistently normalized	Added centralized normalization and validation without exposing secrets	Configuration normalization tests	5008ac1
R B - 0 4	Package scripts referenced missing files	Removed never-implemented commands and added a 619-command integrity gate	npm run scripts:check; complete suite	69fe643
R B - 0 5	Frontend installation/build was not deterministic	Established npm lockfile ownership, documented clean install, and corrected CSS compatibility warning	Clean npm ci; typecheck; 43-route Next.js build	5220b02
R B - 0 6	Production manifests allowed unsafe or ephemeral configuration	Aligned version, persistent PostgreSQL, pre-deploy migration, explicit secret/origin inputs, and fail-closed Compose settings	Render validator, deployment tests, Compose validation	e9b1169
R B - 0 7	Blank PostgreSQL migration failed at late CRM/BI migrations	Made migration 779 additive/compatible, removed undeclared pgvector dependency from 780, and implemented live CRM/marketing adapters	Blank 685-migration run, idempotent replay, regression test	8a6c0a3
R B - 0 8	Dashboard test failed near local/UTC midnight	Made test data use one UTC instant instead of mixing local noon with UTC comparison	Focused test and complete 763-file suite	Pending certification commit

No known locally reproducible blocker remains open.
