

SPRINT DOCUMENTATION

Sprint 26 - Accounting Integrations

ServicePro product and operations documentation

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

This sprint establishes accounting-provider integration foundations.

Included:

- Provider connection registry
- OAuth token storage model
- QuickBooks Online module boundary
- Xero module boundary
- GL account mapping
- Tax code mapping
- Bank reconciliation model
- Payroll export batches
- Financial reporting API structures

Production follow-up:

- Implement QuickBooks OAuth authorization flow.
- Implement Xero OAuth authorization flow.
- Encrypt provider refresh tokens.
- Add sync workers for customers, invoices, payments, and items.
- Add double-entry ledger enforcement.
- Add accounting-period close controls.
