

SPRINT DOCUMENTATION

Sprint 31 - GIS Mapping and Fleet Operations

ServicePro product and operations documentation

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

This sprint establishes the data model and module boundaries for location-aware dispatch.

Included:

- Fleet vehicle registry.
- GPS event tracking.
- Route plan and route stop models.
- Travel-time estimate records.
- Vehicle maintenance records.
- Fuel purchase tracking.
- Geofence definitions.
- Geofence event tracking.
- Mapping provider abstraction.

Production follow-up:

- Add actual map UI.
- Add Mapbox/Google Maps adapters.
- Add live technician GPS ingestion endpoint.
- Add route optimization worker.
- Add geofence alert worker.
- Add fleet maintenance reminder automation.
