

SPRINT DOCUMENTATION

Sprint 35 - Customer Portal

ServicePro product and operations documentation

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

This sprint prepares the customer-facing portal layer.

Included:

- Portal accounts and sessions.
- Online booking request structures.
- Customer payment portal model.
- Live technician tracking session structures.
- Membership management structures.
- Secure document vault metadata.
- Customer chat threads/messages.
- Portal notification preferences.

Production follow-up:

- Add actual customer portal UI.
- Add magic-link login flow.
- Add payment gateway checkout.
- Add real-time technician ETA updates.
- Add customer file upload/download permissions.
- Add chat delivery and notification worker.
