

SPRINT DOCUMENTATION

Sprint 36 - Installer Console and White-Label Operations

ServicePro product and operations documentation

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

This sprint prepares the platform owner / installer operational layer.

Included:

- Installer accounts and permissions.
- Tenant provisioning workflow.
- License policy and enforcement records.
- Feature flag catalog and assignment records.
- Branding asset registry.
- Update channels and tenant update status.
- Remote diagnostics session metadata.
- Tenant health snapshots.

Production follow-up:

- Add installer UI.
- Add remote tenant provisioning automation.
- Add actual license verification middleware.
- Add update package signing.
- Add remote health check collectors.
- Add safe remote-support consent workflow.
