

SPRINT DOCUMENTATION

Sprint 40 - Authentication and Authorization

ServicePro product and operations documentation

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

Implemented contracts:

- Access token claims.
- Refresh token records.
- Password policy validation.
- Permission catalog.
- Role permission presets.
- RBAC helpers.
- Tenant context helper.
- MFA model.
- Auth audit event catalog.
- API route definitions.
- PostgreSQL auth migration.

Production follow-up:

- Implement NestJS/Express controllers.
- Add bcrypt/argon2 hashing implementation.
- Add JWT signing and verification.
- Add refresh-token rotation.
- Add MFA TOTP provider.
- Add email/SMS password-reset delivery.
- Add audit event persistence middleware.
