

SPRINT DOCUMENTATION

# Sprint 51 - Persistent Runtime Store and CRUD

ServicePro product and operations documentation

Publication edition | 2026-08-03

## Document Control

|                 |                                                                                             |
|-----------------|---------------------------------------------------------------------------------------------|
| <b>Purpose</b>  | Enterprise platform overview and buyer evaluation reference                                 |
| <b>Audience</b> | Business leaders, platform administrators, evaluators, partners, and technical stakeholders |
| <b>Scope</b>    | Capabilities, architecture, security, deployment, adoption, outcomes, and terminology       |
| <b>Source</b>   | ServicePro repository documentation; technical meaning preserved                            |

Implemented:

- Persistent JSON datastore.
- Customer CRUD.
- Job CRUD.
- Validation helper functions.
- API smoke client.
- Runtime tests.

Example:

```
npm run reset  
npm run dev
```

Then:

```
Invoke-RestMethod -Headers @{Authorization='Bearer dev-token-change-me'} http://localhost:3000/api/v1/  
customers
```
