Guides

Publication edition | 2026-08-03

Document Control

Purpose	Enterprise platform overview and buyer evaluation reference
Audience	Business leaders, platform administrators, evaluators, partners, and technical stakeholders
Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

Welcome to the ServicePro documentation. These guides are written for everyone who uses the platform — whether you're running the business, managing operations, working in the office, out in the field, or a customer booking a service.

Pick the guide that matches your role to get started.

Guide	Who It's For	Description
Getting Started	Everyone	Log in, navigate the app, and understand your access level
Business Owner Guide	Business Owners	Manage your team, track performance, configure your business
Manager Guide	Operations Managers	Dispatch, scheduling, work orders, reporting, and automation
Staff Guide	Office Staff	Customers, estimates, invoices, payments, and scheduling
Technician Guide	Field Technicians	Daily schedule, job updates, materials, notes, and photos
Customer Portal Guide	Customers	Book services, view invoices, check status, send messages
Platform Admin Guide	Platform Administrators	Manage business accounts, subscriptions, and system health
Storefront Builder Guide	Business Owners	Set up and customize your public business page
Common Tasks	Everyone	Quick step-by-step instructions for everyday actions
Troubleshooting	Everyone	Solutions to common problems

Need Help?

- Look for the Help button (question mark icon) in the top-right corner of any page.
- Contact your business administrator if you're missing access to a feature.
- Platform administrators can reach support through the Support section in the admin panel.
