Scope	Capabilities, architecture, security, deployment, adoption, outcomes, and terminology
Source	ServicePro repository documentation; technical meaning preserved

Table of Contents

[Document Control](#)

[Advance rollout](#)

[Evaluate rollback](#)

```
npm run release:rollout-create
```

Advance rollout

```
npm run release:rollout-advance
```

Evaluate rollback

```
npm run release:rollback-evaluate
```

A paused rollout should not be manually forced forward. Correct the failing health condition or execute an authorized rollback.
