Table of Contents

[Document Control](#)

This sprint adds the data structures and module boundaries required for technician mobile workflows.

Included:

- Mobile device registration
- Offline sync cursor tracking
- Sync change-log table
- Background job queue table
- Upload file metadata
- Photo annotations
- Inspection form templates
- Completed inspection records
- Technician checklist templates
- Checklist completion records
- Voice note metadata

Production follow-up:

- Add actual mobile REST endpoints.
- Add signed upload URLs.
- Add conflict-resolution rules.
- Add background worker implementation.
- Add attachment virus scanning.
- Add mobile push notification delivery.
