Table of Contents

[Document Control](#)

Implemented contracts:

- API route registry.
- API error model.
- Pagination model.
- Validation helpers.
- Response helpers.
- Tenant API context.
- Customer controller contract.
- Job controller contract.
- OpenAPI starter.
- Shared API/entity types.
- API metadata migration.

Production follow-up:

- Implement actual Express/Nest/Fastify HTTP adapters.
- Add runtime validation using Zod or similar.
- Generate OpenAPI from route schemas.
- Add request ID middleware.
- Add structured API logging.
- Add rate limiting and API-key scopes.
