[Commands](#)

Apply this patch over Sprint 59.

- Estimates now resolve service-code lines in PostgreSQL mode.
- Invoices now resolve service-code lines in PostgreSQL mode.
- Invoice recordPayment works in PostgreSQL mode.
- Added async price-book line resolver.
- Added service seeding helper.
- Added PostgreSQL indexes and runtime check table.

Commands

```
npm install
npm test
```

PostgreSQL mode:

```
$env:DATA_STORE="postgres"
npm run migrate
npm run seed:services
npm run dev
```
